

Name _____ Date _____

St. Patrick's Day Counting Coins

Instructions: There is a legend that a leprechaun has a pot of gold at the end of the rainbow. You find the pot of gold and are counting to see how many gold pieces there are. Each stack of gold has 5 pieces, so count by 5's to see how many gold pieces there are. The first two are done for you.

_____ 5 _____

_____ 10 _____

There are _____ total pieces of gold.
