

Name _____

Date _____

Addition with Pictures Worksheet

Add the following and write the number in the space provided.

$$\begin{array}{c} 2 \\ \text{2 butterflies} \end{array} + \begin{array}{c} 2 \\ \text{2 butterflies} \end{array} = \underline{\quad}$$

Count the first group of butterflies. The first group has 2 butterflies. Count the second group of butterflies. The second group has 2 butterflies. To find the sum of 2 and 2, count all the butterflies together. There are 4 butterflies in all i.e. $2+2=4$.

$$\begin{array}{c} 2 \\ \text{2 butterflies} \end{array} + \begin{array}{c} 2 \\ \text{2 butterflies} \end{array} = \underline{4}$$

Practice Problems

$$1 \quad \begin{array}{c} \text{4 leaves} \end{array} + \begin{array}{c} \text{3 leaves} \end{array} = \underline{\quad}$$

$$2 \quad \begin{array}{c} \text{6 teddy bears} \\ \text{2 teddy bears} \end{array} + \begin{array}{c} \text{3 teddy bears} \end{array} = \underline{\quad}$$
